## Invest in Your Health

### Massage Offers Excellent Return on Investment

"Invest for the long term" is great financial advice, but it's also great healthcare advice. Never is investing for the long term more important than when you are making day-to-day decisions about your health. There are short-term gains from taking care of your health, to be sure, but the long-term benefits are not to be underestimated.

You already know the value of bodywork. For all the short-term stress and pain relief you get from massage today, there are lasting rewards you'll thank yourself for down the road. Massage therapy as a preventive measure and part of an ongoing care regimen can mean fewer visits to the doctor, as well as fewer

emotionally and spiritually, and maintain harmonious relationships with coworkers, family, and friends.

Research supports the value of massage. Massage provides many benefits, including improved concentration, energy, circulation, and self-esteem, as well as reduced stress, fatigue, and pain. It's helpful with more acute health conditions, also. If you, or a loved one, are already dealing with a health condition, massage is an even more important part of your healthcare planning.

Research shows:

-- Alzheimer's patients exhibit reduced irritability, pacing, and restlessness after

*"In the end,  
it's not the  
years in your  
life that count.  
It's the life in  
your years."*

-Abraham Lincoln

Massage is a health investment, helping to manage stress, support wellness, and boost immunity.

co-pays, prescriptions, and over-the-counter medications. Ultimately, it means a healthier and happier you.

### An Excellent Value

As you plan the family budget, ponder how massage therapy impacts your ability to make good decisions, cope with extra responsibilities, stay on an even keel

neck and shoulder massage.

-- Deep-tissue massage is effective in treating arthritis, back pain, fibromyalgia, and osteoarthritis.

-- Fibromyalgia patients receiving massage have fewer sleep problems and less anxiety, depression, fatigue, pain, and stiffness.

**The Power of Tea Tree Oil**

Continued from page 1

-- Massage during labor appears to help block pain, reduce stress and anxiety, and relax muscles. Some medical professionals say massage shortens labor.

-- Massage can reduce sports-related soreness and improve circulation, and is beneficial in reducing symptoms associated with arthritis, asthma, burns, high blood pressure, and premenstrual syndrome.

-- Oncology patients show less anxiety, depression, fatigue, nausea, and pain following massage therapy.

-- Preterm babies receiving massage therapy gain more weight and have shorter hospital stays.

-- Massage therapy is effective in reducing post-surgical pain and can even reduce the time required for post-operative hospital stays.

You may be trimming some extras out of your budget, as many Americans are. When weighing what goes and what stays, consider what an excellent value massage is, especially in relation to things that may be less valuable, but still cost you plenty. The price of massage has remained stable in recent years, while the cost of movies, dining out, and sports events have risen. Which of these activities has the power to improve your health and which has a better return on investment?

## Get Creative

There are many ways to keep massage in your life if you use your imagination. While vacations are definitely needed right now by just about everybody, more and more Americans are staying closer to home and taking "staycations." How about planning a healthy, home-based vacation and including massage as part of your relaxation?

When it comes to gift-giving occasions, why not give and ask for massage gift certificates? Massage makes a wonderful replacement for flowers that wilt, sweaters that don't fit, or another box of fattening candy. Some folks buy spa packages or put together their own outings with a massage, a museum excursion, or lunch at a favorite restaurant. Mothers, daughters, aunts, and grandmothers are enjoying spas together and massage is a key part of the package. These events create bonding experiences that launch new traditions and reinforce a healthy lifestyle.

Gift certificates for chair massage at airports are an option for weary travelers, as is chair massage at malls for package-laden shoppers. If you are an employer, consider gifting your staff with on-site chair massage, which has been shown to reduce stress and improve performance. Just think of it as the ultimate pat on the back for staff and one that pays you back.

## Maintain Well-Being

You may be tempted to trim your wellness budget when economic times are tough. Yet, a recent national consumer survey showed most massage-minded Americans are still committed to maintaining the health benefits they experience with massage. It only makes sense. The better you feel, the better job you can do of caring for yourself and your loved ones. Massage therapy will also help families under stress create healthier households, and

more focused and relaxed moms and dads. Children are sensitive and often pick up on tension in a household; parents who are taking care of themselves are more likely to provide a sense of calm to their kids. This goes for caregivers of aging parents, too.

Now, more than ever, massage should play a role in reducing your stress and strengthening your health. When people feel their best, they are more able to face the challenges difficult times present. With greater health and peace of mind, you can face difficulties with poise, clarity of purpose, and strengthened emotional reserves.

Truly, massage is more than a luxury--it's a vital part of self-care that has a positive ripple effect on you as you work, play, and care for others. Investing in your health is one investment that's sure to pay off.

**The value of bodywork runs deep, for nothing is more valuable than good health.**

# Lavender

## An Essential Oil for Fundamental Health

Laurie Chance Smith

Lavender essential oil is a one-stop medicine chest, helping to reduce anxiety, fatigue, and stress and balance hormones, increase the immune response, lower blood pressure, and relieve pain. To utilize lavender's healing benefits at home, mix five to 10 drops of lavender essential oil in one ounce of jojoba oil or unscented lotion. (Essential oils shouldn't be applied directly to the skin; it's best to partner them with a carrier oil, liquid, or lotion.)

### EARACHES

For earaches, dab one drop of lavender massage oil behind the ear and rub gently. Alternatively, place one drop of lavender oil on a cotton ball and carefully place inside the outer ear.

### HEADACHES

Inhaling lavender is also effective for headache relief. Add a few drops to a bowl of warm water and breathe. Gently rub lavender massage lotion on the temples, forehead, and base of the neck.

### COLDS

Lavender oil can also help break up coughs and clear sinuses. Colorado-based holistic aromatherapist Nicola McGill suggests the regular home-use of antiseptic essential oils such as lavender to help avoid colds and other infectious diseases. Add a few drops to a vaporizer to help clear colds and infuse the home with lavender's scent.

### STRESS

At night, six to eight drops of lavender added to a warm bath helps melt away stress and relieve fatigue. Blend a footbath by adding three drops of lavender to a bowl of warm water, sink your feet in, and relax. For help inducing sleep, add two or three drops of lavender essential oil to the underside corner of your pillow.

### TRANQUIL AROMA

A human takes 23,040 breaths a day, and each inhale floods the system with scent. Rely on lavender's tranquil aroma

to clear the way toward peaceful days.

Lavender is loaded with wellness properties.

---

# The Power of Tea Tree Oil

Is your medicine cabinet full of ointments, oils, and creams that each treats one specific ailment? Maybe you can cut down on some of the clutter by adding nature's own wonder drug, tea tree oil, instead.

## What is Tea Tree Oil

Produced in Australia from the tree *M. alternifolia*, tea tree oil acts as an antiseptic, fungicide, insect deterrent, and more. It has been used in Australia by aborigines for generations and, since the country's colonization, has spread to the rest of the world.

Tea tree oil, which can be found as an essential oil as well as in creams, ointments, shampoo, and even toothpaste, can be used to treat a staggering variety of conditions, including: acne, arthritis, athlete's foot,

burns, cuts, dandruff, eczema, gingivitis, infection, insect bites and stings, lice, muscle sprains, psoriasis, and rashes. And that's just a partial list!

## Potential Benefits

The exact cause of tea tree oil's effectiveness is difficult to ascertain, and researchers are still looking into just how much the natural remedy can do for us. Newer studies have looked at its ability to stop the spread of sometimes-deadly methicillin-resistant *staphylococcus aureus* in hospitals.

## Use Safely

While there are plenty of benefits to using tea tree oil, its strength can also be problematic, even dangerous. The Mayo Clinic advises that it's not safe to ingest or take tea tree oil internally, and it is considered particularly harmful if

ingested by pets.

Also, like most natural remedies, the US Food and Drug Administration does not regulate tea tree oil as it does other medicines, leaving no standard quality of tea tree oil products. And, while many people enthusiastically support tea tree oil, it is no substitute for professional medical care.

Yet, many people agree that, if nothing else, tea tree oil should be a part of your first aid kit in case of bites, burns, or scrapes. But who knows? You might find yourself using it for much more than that.

*"When the body gets working appropriately, the force of gravity can flow through. Then, spontaneously, the body heals itself."*

-Ida Rolf

SPRING IS IN THE AIR:

Do you get seasonal allergies?

Try DoTERRA oils.

2 drops each of Lavender, lemon,& peppermint in a gelatin capsule taken internally.

For those who are bolder, mix the oils in a 1/4 cup of juice or water. swish 10-20 seconds in mouth & swallow.

You can also inhale this blend or try inhaling the Breathe Blend or Melaleuca(Tea Tree)oil to open breathing passages & help relieve seasonal allergies.
